

Traffic Engineer Position

Frederick P. Clark Associates, Inc. is seeking a qualified engineer to complete traffic and parking studies at its Rye NY office. It is a medium size Traffic and Land Planning firm which provides its services to private developers as well as Towns. Projects include shopping centers, offices, medical facilities, schools and recreational facilities.

The position requires a BS in engineering and at least five years of experience in completing analyses and preparing reports. This position will include day and evening meetings. A NY/CT Professional License is preferred.

Benefits include medical/dental/visual insurance, profit sharing, a 401k plan and holiday schedule. Applicants should forward their resumes, references and salary requirements to mgalante@fpclark.com.
